

Address: *9298 Horton Road SW, Calgary, AB* (Located in the “Perfect Fry Company” Building)

Horton Road is located one block west of Macleod Trail South between Heritage Drive and Southland Drive. Our office is located half way between Heritage Drive and Southland Drive on the east side of Horton Road. Access from westbound Heritage Drive on to Horton Road is not possible due to a cement median that prevents you from turning left.

Note: The building we are in is set back from Horton Road and not easily seen when driving down Horton Road. Look for a sign with the name ‘Perfect Fry Company’ as we share office space with this company. A large sandwich board sign will be placed at the curb next to the entrance to our parking lot to help you find our building.

Landmarks:

The businesses located adjacent to our office building are a large warehouse called ‘Cascade Metals’ and ‘Alberta Landscape Supply’. The entrance to our parking lot is located between these two businesses.

When you enter the parking lot, drive straight across to the far side and park on the upper level. Enter the building using the glass door located on the upper level of the parking lot. Go to the 2nd floor and ask where the NewViews Training is taking place.
